SERVICE LETTER

Service Letter No. L114AR
(Supersedes Service Letter No. L114AQ)
February 27, 2009

TO: Owners and Operators of Lycoming Aircraft Engines
SUBJECT: Reciprocating Engine and Accessory Maintenance Publications

NOTE 1

All publications may be ordered through authorized Lycoming distributors, or direct from Lycoming. **Payment must be remitted in U.S. dollars when ordering directly from the factory.**

NOTE 2

Prices and availability are subject to change. Contact Lycoming for current price information.

The available maintenance publications for Lycoming engines and accessories consist of the following: **NOTE: Parts Catalogs will no longer be shipped with separate binders, but will be drilled. Binders can be purchased separately for \$12.00.**

ENGINE SPECIFICATIONS – Engine specifications may be purchased for a list price of \$15.00. Complete engine model information must be supplied when ordering. NOTE: Installation drawings are not included with engine specifications but can be purchased separately.

INSTALLATION DRAWINGS – Installation drawings may be purchased for a list price of \$60.00. Complete engine model information must be supplied when ordering.

OPERATOR’S MANUALS – The Operator’s Manual contains information of use to pilots and maintenance personnel. It contains engine specifications, inspection procedures, and operational information and is used in conjunction with the aircraft owner’s manual. **NOTE: All current revisions are included with Operator’s Manuals.**

OPERATOR'S MANUAL REVISION – Operator's manual revisions may be purchased for a list price of \$15.00 each. Complete engine model information must be supplied when ordering.

OVERHAUL MANUALS – The overhaul manual is a guide for major repair of the engine. It contains complete disassembly, inspection, repair, reassembly and test procedures for the various Lycoming reciprocating engines. When used in conjunction with the applicable parts catalog and service bulletins, service instructions and service letters; this manual provides an authoritative text for complete overhaul of the engine. Overhaul Manuals for current Lycoming engines are published in loose-leaf format to permit addition of revised or additional information without disturbing the unaffected portions. Each manual contains a registration card which, when properly executed and returned to Lycoming, assures that the owner will receive any additions or revisions that are made to the manual and Table of Limits, SSP-1776 within a specified time. Therefore, it is essential that Overhaul Manual owners return this registration card. **NOTE: All current revisions are included with Overhaul Manuals.**
