SERVICE LETTER

Service Letter No. L247
(Supersedes Change Notice No. 280 Revision B)
May 21, 2010

TO: All Owners and Operators of Lycoming Aircraft Engines

SUBJECT: Shelf Life Requirements

The purpose of this Service Letter is to identify storage life limited parts used on Lycoming aircraft engines. The attached alphanumeric list represents all known storage life limited parts as of the date of this publication. This Service Letter L247 has been converted from internal document Change Notice No. 280 in an effort to reach a wider audience, including field service.

NOTE – TABLE 1

The cure date is the date the part was manufactured. The shelf life, listed in quarters, is the length of time a part can be stored on the shelf and remain serviceable.

NOTE – TABLE 1

Parts shipped from Lycoming will have a minimum of one year (4 quarters) of shelf life remaining beyond the invoice date. The cure date information must stay with the part until the part is assembled on an engine.

NOTE – TABLE 1

Parts made from silicone, Teflon, fluorocarbon or fluorosilicone, which have a shelf life of more than 10 years (40 quarters), are not covered by this Service Letter.

NOTE – TABLE 2

Parts listed in Table 2 are packaged by our supplier and contain information of shelf life and cure date as necessary for that part.
