SERVICE LETTER

Service Letter No. L221C
(Supersedes Service Letter No. L221B and
Supplement No. 1 to Service Letter No. L221B)
June 15, 2007

TO: All Owners and Operators of Lycoming Piston Aircraft Engines

SUBJECT: Warranty Repair of Precision Airmotive Corporation Fuel Control Products

Lycoming requires that any Precision Airmotive Corporation fuel control product that needs repair, within the warranty period, be sent directly to an Authorized Precision Airmotive Corporation Product Support Center for verification and corrective action.

The return of Precision Airmotive Corporation Fuel Control Products to Lycoming Engines for warranty consideration is not necessary or recommended. **EFFECTIVE IMMEDIATELY**, all applications for warranty submitted to Lycoming Engines will be held until a disposition of the unit can be obtained from Precision Airmotive Corporation. If the warranty is denied by Precision Airmotive Corporation, the unit will be returned to you at your expense, and the warranty application closed.

The attached Precision Airmotive Corporation warranty procedures will prevail, except that claims for removal and installation labor component must be submitted through an authorized Lycoming distributor. Applications for labor will be considered only if the appropriate Warranty Application is properly executed and is submitted with a copy of the Precision Airmotive Corporation Warranty Form showing acceptance of the claim.

When submitting your part to Precision Airmotive Corporation, be sure all important information is provided to include:

- AIRCRAFT OWNERS NAME AND ADDRESS
- AIRCRAFT MODEL, S/N, DELIVERY DATE AND DATE OF OCCURRENCE (of problem)
- ENGINE MODEL AND S/N
- PRECISION AIRMOTIVE CORPORATION UNIT MODEL, PART NUMBER AND S/N
- HOURS SINCE NEW OR OVERHAUL

Failure to supply the above information will result in rejection of your claim by Precision Airmotive Corporation.

Complying with this new procedure will benefit all involved.

Any questions regarding warranty of Precision Airmotive Corporation components should be directed to the attention of the Warranty Administrator:

Precision Airmotive Corporation
14800 40th Avenue, N.E.
Marysville, WA 98271
Tel: (360) 651-8282
Fax: (360) 651-8080

The list of repair and maintenance center authorized by Precision Airmotive is subject to change. In order to be assured of the most recent contact information, please use the following sources.

Phone: (360) 651-8282
Fax: (360) 651-8080

NOTE: Revision "C" revises Precision Airmotive Corporation Warranty and Product Support Centers.

SIL PAC-1 Revision 6

**PRECISION AIRMOTIVE LLC
COMMERCIAL WARRANTY
FUEL CONTROL PRODUCTS**

PRECISION AIRMOTIVE LLC ("Precision") warrants that at the time of delivery each of its Factory New, Factory Rebuilt, and Factory Overhauled products ("Products") will be free from defects in materials and manufacture and will conform to the applicable Precision specifications. Precision also warrants that the Products will remain serviceable for a period of twenty-four (24) months from the date of shipment from the factory or for 1,000 engine operating hours, whichever shall occur first. This warranty applies only to Products that have received recommended maintenance and have not been subjected to (a) lack of proper maintenance or overhaul, (b) lack of proper filtration (where applicable), (c) repair by any party other than Precision or a Precision-authorized Product Support Center, or (d) tampering, alteration, improper operation or storage, or other extraordinary or abnormal use, abuse, or neglect.

The use of unauthorized parts in Precision Products constitutes an alteration or modification and voids all warranties. Precision will accept no warranty or tort liability for products containing unauthorized parts. The operator and/or overhaul facility responsible for installation of unauthorized parts should expect to have the sole and full liability for property damage, injury, and death arising from any malfunction of the product in which such parts are installed. **The use of Non-Aviation grade fuel Voids all Warranties.**

THE ABOVE WARRANTY IS THE SOLE WARRANTY OBLIGATION OF PRECISION FOR THE PRODUCTS. PRECISION EXCLUDES AND DISCLAIMS ALL OTHER WARRANTIES—WHETHER EXPRESSED OR IMPLIED—INCLUDING ANY WARRANTY OF MERCHANTABILITY, ANY WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE, AND ANY IMPLIED WARRANTIES OTHERWISE ARISING FROM COURSE OF DEALING, COURSE OF PERFORMANCE, OR USAGE OF TRADE.

If a Product fails to conform to the foregoing Warranty, customer's EXCLUSIVE remedy shall be to send the nonconforming Product with a written description of the nonconformity to a Precision-authorized Product Support Center for Warranty consideration within a reasonable period of time and in no event more than (30) days after discovery of the nonconformity. Precision will investigate and, in the event of a breach, will provide, at its option and within a reasonable period of time, one of the following remedies.

- (a) Repair at its factory or at a Precision authorized Product Support Center of the nonconforming Product or component part thereof,
- (b) Replacement from its factory of the nonconforming Product or component part thereof,
- (c) Issuance of a credit to the first user in the amount of the then current applicable net price for the nonconforming Product or component part thereof.
- (d) If the Product is a Factory New Fuel Control with 0 (zero) flight time (Note: Ground testing does not account for flight time), replacement with a conforming Factory New Fuel Control, or
- (e) If the Product has less than 25 hours flight time, replacement with a Factory Rebuilt or Factory Overhauled Unit.

To obtain remedies (d) or (e), the nonconforming Product must be returned to where it was originally purchased, and a CSR (Customer Service Request) number must be obtained from Precision before a replacement unit will be shipped. This warranty does not extend to any labor charges incurred by entities other than Precision or a Precision-authorized Product Support Center and excludes such entities' labor charges for repair, replacement, disassembly, reassembly, inspection, re-inspection, test or retest of the Product or component part thereof or any replacement unit. Note: If a returned Product is found to be free of defects, the customer returning the unit may be subject to additional fees. Transportation charges shall be handled as follows:

- (a) Return of product or component part thereof to Precision or a Precision-authorized Product Support Center shall be prepaid by customer.
- (b) If a returned Product or component part thereof is found to be nonconforming, Precision will provide return ground shipping, at Precision's expense. Any expedited freight charge will be at customer's expense.
- (c) If a returned Product or component part thereof is found to be free of defects, all transportation charges will be at customer's expense.

THE REMEDY SELECTED BY PRECISION IN ACCORDANCE WITH THE PRECEDING PARAGRAPHS SHALL BE THE EXCLUSIVE AND SOLE REMEDY OF CUSTOMER FOR ANY BREACH OF WARRANTY.

IN NO EVENT SHALL PRECISION BE LIABLE FOR ANY INCIDENTAL DAMAGES (other than the transportation charges described above) OR FOR ANY SPECIAL, INDIRECT, OR CONSEQUENTIAL DAMAGES, WHETHER RESULTING FROM NON DELIVERY OR FROM THE USE, MISUSE, OR INABILITY TO USE THE PRODUCT OR FROM DEFECTS IN THE PRODUCT OR FROM PRECISION'S OWN NEGLIGENCE OR OTHER TORT

If any provision of this warranty is found to be invalid or unenforceable, then the remainder shall full force and effect, and the invalid provision shall be partially enforced to the maximum extent permitted by law to effectuate the purpose of the agreement.
