Lycoming Aircraft Engines Parts Catalog

O, LO, TO, -360 Series **Wide Cylinder Flange Models**

LYCOMING

TO-360-F1A6D

The TO-360-F1A6D model aircraft engine is not included in the general assembly list of this parts catalog. For parts peculiar to the TO-360-F1A6D model engine, use all parts listed under the TO-360-C1A6D column except for the following parts which are different.

INTRODUCTION

This illustrated Parts Catalog provides parts coverage for all current models of O, LO, TO-360 wide cylinder flange (WCF) series engines. These wide cylinder flange engines are identified by the suffix "A" on the engine serial number (e.g. L-20650-36A). The serial number as well as the model designation may be found on the engine nameplate on the oil sump. For parts information of the O-360 conventional (or narrow) cylinder flange engines, refer to the Parts Catalog PC-106 to those parts marked STD (meaning standard) for standard or narrow cylinder flange.

Group Assembly Section: This section lists major assemblies and sub-assemblies in the general order of engine build-up.

Service Kit Section: Seal and gasket sets and cylinder, piston and ring kits are provided in this section.

Numerical Index: Quick determination of part location in the catalog is possible thru this section when only the part number is known.

Oversize and Undersize Parts: Procurable oversize and undersize parts are listed preceding the main group assembly parts list.

Vendor Accessories: Parts coverage of Vendor Accessories used on Lycoming engines may be found in the appropriate Vendor's Parts Catalog. A list of the publications appear in the latest edition of Lycoming Service Letter No. L114.

SERVICE BULLETINS, INSTRUCTIONS AND LETTERS

Although the information in this catalog is up-to-date at the time of publication, user are urged to keep abreast of later information through Lycoming Service Bulletins, Instructions and Letters which are available from all Lycoming distributors or from the factory by subscription. Consult the latest edition of Service Letter No. L114 for Subscription information.

NOTE

The illustrations, pictures and drawings shown in this publication are typical of the subject matter they portray; in no instance are they to be interpreted as examples of any specific engines, equipment or part thereof.

LW-11021	BEARING, Crankshaft								X	X	X

Studs available in P03, P07 and P12.

NOTE

When ordering oversize or undersize parts, be sure to specify the required oversize or undersize dimension along with the proper part number. For example: to order bearing LW-13521 in .003 undersize, order part number LW-13521-M3. Oversize code is "P" while undersize code letter is "M" These letters are then followed by the numbers designating the size in thousandths of an inch.
