 06-25-2026

TO: All Owners and Operators of Lycoming Aircraft Engines
SUBJECT: Tool Rental Program
REASON FOR REVISION: Updated SSP Number for Catalog, Added Fees and Charges Section

NOTICE: Incomplete review of all the information in this document can cause errors. Read the entire Service Letter to make sure you have a complete understanding of the requirements.

Lycoming Engines is pleased to announce a special rental tool program. This program is designed to support your need for special tools required for maintaining Lycoming reciprocating engines. Please check Lycoming Special Tool Catalog SSP-385 for proper tool application. This tool rental program will be available through the normal Lycoming parts distribution network.

To arrange for rental tools, contact your local distributor. The list can be found online at www.lycoming.com/distributors Many tools are available for rent on a first come, first serve basis. A nominal rental fee per tool will be charged. The distributor will provide the factory with customer name and shipping address.

Fees and Charges

- Rental tool fee plus the value of the tool will be charged upon placement of the rental tool order. The tool value charge will be held until the rental tool is returned to Lycoming in satisfactory condition. After internal inspection the credit will be released back to the customer minus the rental tool fee.
- Customers who return damaged tools will be charged for the repair of the tool.
- Tools that are damaged beyond repair are subject to become customer property and may be returned to the customer, no credit will be issued.
- Tools that are returned late are subject to another month of rental fees.

NOTICE: No P.O. Boxes please, as tools will be shipped Federal Express Economy. Shipping charges will be the responsibility of the customer.

Tools must be returned in satisfactory condition, within 30 days domestic and 45 days international. Tools are to be returned, Fed Ex Economy Prepaid to:
